Filtering on Data

1. There are many ways you can filter the data – each column is something you can filter on. To start filtering for any data, click on “Add filter”.

The screenshot shows the 'Review Selected' tab with a notification box containing instructions: 'To set the oath date or set application failed to qualify select the notary applications from the list by clicking on the checkbox or double-click on any other column of the row. To toggle selection of all the visible rows — click on the checkbox in the column header. Go to the Review Selected tab to review your choices and update the records. To customize the application results use the Add Filter button. To review the history of the applicants who have already taken the oath — click on the View Oath History'. Below the notification is a table with columns: Notary ID, Full Name, Oath Expiration Date, and Print Commission Date. A green 'Filter +' button is circled in red.

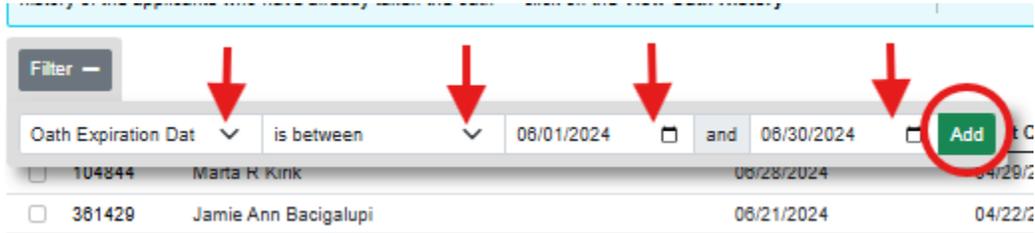

2. Click on the arrow next to “Select filter...” to select the data you want to filter on. This menu shows the columns you can filter on.

The screenshot shows a 'Filter' dropdown menu with a 'Select filter...' option selected. The menu lists the following columns: Notary ID, First Name, Middle Name, Last Name, Oath Expiration Date, Print Commission Date, Oath Taken Date, Term Expiration Date, and Is Good Standing.

3. If you want to find the applications with an oath expiration date in June of 2024, select “Oath Expiration Date”.

The screenshot shows the 'Add filter' dialog box. The 'Oath Expiration Date' column is selected and circled in red. The dialog also includes a 'Select operator...' dropdown, a date input field with 'mm/dd/yyyy' format, and an 'Add Filter' button.

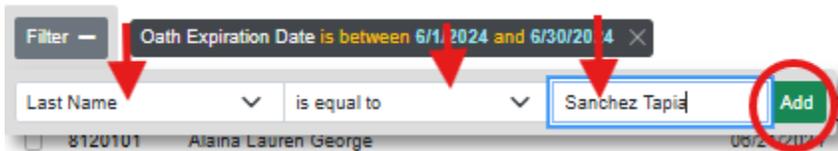

- In “Select operator...” select “is between” and select or type in 06/01/2024 in the first box. Select or type in 06/30/2024 in the second box. Click “Add Filter” and this will show you all the applications where the Oath Expiration Date are between those two dates.

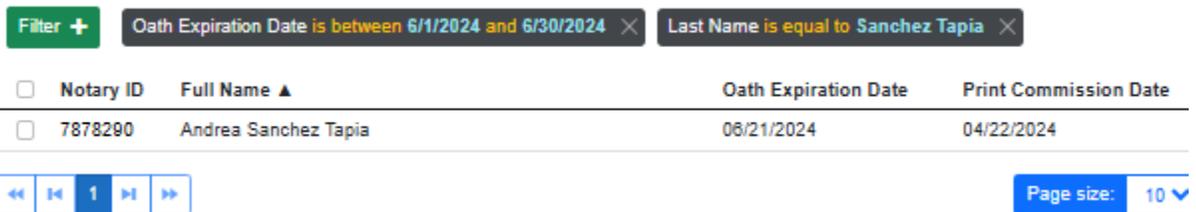

- After clicking “Add Filter”, you will see the filter in a dark box. and update the records. To customize the application results use the **Add Filter** button history of the applicants who have already taken the oath — click on the **View Oath**

- Another example, if you would like to look for a specific person with the last name of “Tyson”, you would click “Add filter” and select “Last name”. Because you know the last name of the application, you would select the operator “is equal to” and type in Tyson in the box provided and click on “Add Filter”. In the example shown below, this will bring up everyone who’s last name is Tyson where the Oath Expiration Date is between June 1, 2024 and June 30, 2024.

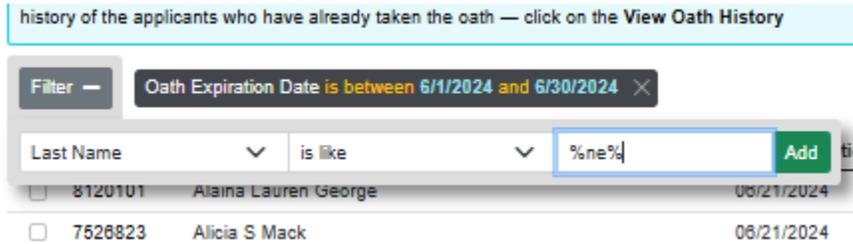

- Once you have clicked “Add Filter” you can see two dark boxes that shows you what filters are currently active.

- You can use these examples to filter as much as you would like.
- If you use the “is like” or “is not like” filter, there is one extra step you must do.

- a. If you want to search for any applications that has a name with certain letters in it, you must add a “%” symbol to the search field. Please see the example below.

- b. If you want to see all the applications where the last name has “ne” anywhere in the last name, select “Add filter” then select “Last name”. For the operator select “is like”. In the space provided type in “%ne%” and click “Add Filter”. This will bring up all applications where the last name has an “ne” in it. Please see the example and results below:

<input type="checkbox"/>	Notary ID	Full Name ▲

- c. Note: Use a “%” character in the search to specify any characters of any length. This character can be used anywhere in your search term, more than once. For example, J%n will find all the words that start with J and end with n, while %fin% will find all the words that contain the word fin.

Confirm setting the "Failed To Qualify" status

Please confirm setting the "Failed To Qualify" status for 1 application.

Confirm Cancel

6. Mark as Failed to Qualify: Click the “Failed to Qualify” button. Once the system processes the action, a green success bar will appear at the bottom of the screen.

Oath Date mm/dd/yyyy  **Set Oath Date** OR  **Set Failed To Qualify**

All updates were successful.

Please ensure that once you have logged the date for a “Fail to Qualify,” you properly dispose of the corresponding commissions. These commissions do not need to be returned to our office.

Thank you for your attention to this matter.

7. **Important Reminder: If multiple applications are displayed, all will be marked as “Failed to Qualify.” Ensure only the intended applications are selected.**
8. Clear Selections: Once the success bar appears, remove all selected applications to finalize the process.

7. If there is a green check mark next to the name under the Good Standing column, the Notary is in good standing in accordance with the following
 - a. The specific application currently has a status of “Virginia Notary Public”
 - b. The Term Expiration Date has not expired
 - c. In the example below, the Notary has two applications in the system.
 - i. The application with the Oath Expiration Date of 04/10/2020 has an expired term date.
 - ii. The application with the Oath Expiration Date of 05/31/2024 has a valid term date and there is a green check box in the Good Standing column.
 - iii. Since the term date for the most recent application is not expired, this Notary is in Good Standing and a Good Standing letter can be issued from your court house.
